Profile

An independent and self-motivated hardworking individual dedicated towards goals with strong problem-solving abilities and a passion for creating efficient, user-friendly web applications.

Education

Takshshila Institute of Engineering and Technology, Jabalpur

2020 – 2024

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.57

Technical Skills

Languages: Java, JavaScript

Frontend: ReactJS, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive UI

Backend: Node.js, Express.js

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, VS Code, Eclipse

Concepts: OOP, DSA, REST APIs, SDLC, Context API, localStorage

Projects

Book Inventory Management System | *ReactJS, Open Library API, Tailwind CSS, Context API*

[GitHub](#) | [Live](#)

- Developed a full-stack book management application with CRUD operations, integrating Open Library API for access to 20M+ books with real-time search and dynamic filtering capabilities.
- Implemented light/dark theme toggle with Context API, localStorage persistence, and React Toastify for user notifications, ensuring seamless UX across sessions.
- Built responsive UI with Tailwind CSS featuring modular components, form validation (email, integer, string), and optimized performance with React Hooks and efficient state management.

Code Editor Web App | *ReactJS, HTML5, CSS3, JavaScript*

[GitHub](#)

- Built a browser-based code editor with live HTML/CSS/JS preview using React Hooks.
- Enhanced usability with instant output rendering and responsive layout.
- Implemented real-time code execution with split-pane interface for seamless coding experience.

Portfolio Website | *ReactJS, CSS3, Responsive Design*

[Live](#)

- Developed a modern responsive portfolio to showcase skills, projects, and achievements.
- Designed with smooth animations and interactive UI elements to enhance user engagement.

Experience

Software Development Engineer Intern

Jun 2025 – Present

Innovestigia

Remote

- Developing frontend components for a role-based Gate Entry Management System, implementing authentication flows and access control UI using ReactJS.
- Building responsive user interfaces with React, focusing on performance optimization and modern design patterns for multi-role dashboards.
- Collaborating in an Agile sprint environment to deliver scalable features and reusable UI components while supporting code reviews and testing.

Java Developer Intern

Jul 2024 – Sep 2024

Anudip Foundation

Jabalpur, MP

- Built Java modules using JDBC, SQL, and DAO design, improving data efficiency.
- Implemented validation and exception handling ensuring reliable application behavior.

Certifications

ReactJS Internship – Robotronix India

2023

- Completed intensive training on React fundamentals, component lifecycle, hooks, and state management.
- Built multiple hands-on projects demonstrating proficiency in modern React development practices.
